Pharmaceuticals / PH-09

Imported medicines warehouse and customs requirements

From 2026, medicines may be stored only in customs and free warehouses that meet the requirements. What importers and warehouse operators need.

$2 bn in imports: every box must be stored as required.

The chairman of the Customs Committee said medicine imports reached $2 bn in 2025. Under a 2024 Presidential decree, from 2026 medicines may be stored only in customs and free warehouses that meet the requirements and provide appropriate conditions.

Conceptual architecture. No operating results are shown.

01 Receiving	Importer · Batch · Documents
02 Storage	Zone · Temperature · Status
03 Outbound	Clearance · FEFO · Shipment
04 Reporting	Client · Inspection · Billing

At a glance

$2 bn — Medicine imports in 2025. [1]

2 620 — Imported medicines with artificially inflated prices (out of 7 566), according to the Pharmaceutical Agency. [2]

486 — Distribution warehouses with GDP implemented. [3]

November 2026

01 Evidence and context

Who it is for

Importer	Timing and cost.
Warehouse operator	Conditions.
Customs broker	Documents.
Responsible pharmacist	Quality.

Facts and global practice

kun.uz

Chairman of the Customs Committee: medicine imports reached $2 bn in 2025; imports of expired, substandard and harmful medicines are not accepted. [1]

kun.uz

Under the decree of 23 January 2024, from 2026 medicines are stored only in customs and free warehouses that meet the requirements. [1]

Pharmaceutical Agency (kun.uz)

Of 7 566 imported medicines, 2 620 had prices artificially inflated by up to 41–60%. [2]

The kun.uz report uses the phrase 'GCP requirements'; the exact standard should be verified in the official text.

02 Where the losses occur

Temperature evidence

Continuous record for each zone.

Batch and expiry

Even before customs clearance.

Accounting by client

Several importers in one warehouse.

Documents

Customs and quality documents kept with the batch.

How the loss is calculated

Rejected batch	number of deviating batches × value per batch
Licence	suspension of operations
Delay	clearance delay (days) × cost per day of delay
Disputes	client claims

Illustrative calculations; establish the baseline, units and rates during the site assessment. Avoid counting the same loss twice.

03 Solution architecture

Multi-client GDP warehouse

The warehouse system tracks batch, location, expiry and temperature by importer and provides reports to each client.

01 Receiving

Importer · Batch · Documents

02 Storage

Zone · Temperature · Status

03 Outbound

Clearance · FEFO · Shipment

04 Reporting

Client · Inspection · Billing

Modules

WMS: multi-client	By importer	Commercially available
Temperature sensors	Zones	Engineering capability
Client reporting and billing	Pallet/day	Engineering capability
1C integration	Documents	Commercially available

Each module has a readiness status. Third-party results are not a forecast for your site.

04 Implementation and measurement

01 Warehouse audit

Zones and process.

Output: requirements checklist.

02 Pilot

One zone.

Output: temperature and batch.

03 Scale-up

Entire warehouse.

Output: full scope.

04 Subscription

Monthly.

Output: client reporting.

What is measured

Temperature deviation	Incidents	Sensors
Receiving time	Hours	WMS
Client reports	On time	System
Stock accuracy	Variance	WMS

What is needed to start

- Warehouse operator
- Zone layout
- Client list
- Sensors

05 Readiness checklist and next step

01 Is temperature recorded continuously in each zone?	Yes / No / Unknown
02 Is there separate accounting for each importer?	Yes / No / Unknown
03 Are batch and expiry recorded at receiving?	Yes / No / Unknown
04 Is client reporting automatic?	Yes / No / Unknown
05 Is billing per pallet/day automatic?	Yes / No / Unknown
06 Is there a quarantine zone?	Yes / No / Unknown
07 Are documents stored with the batch?	Yes / No / Unknown
08 Is a report ready for the inspector?	Yes / No / Unknown
09 Are the sensors calibrated?	Yes / No / Unknown
10 Is there a designated responsible person?	Yes / No / Unknown

What we do not promise

• Exact timeline and price without an audit

• GMP/GDP certificate or inspection outcome

• Approving validation documents ourselves

• Unmeasured results

Import warehouse audit

We compare warehouse zones and processes against the requirements.

• Breakpoint map

• Pilot plan

• Implementation fee and monthly subscription

Scope, price and schedule are agreed after reviewing the site and its data.
